**PUBLIC COMMENT**

**CONSENT AGENDA**

**Discussion Items**

1. Update on Airport Projects – City Administrator Pruetting

Wind Damage - The city's insurance carrier is re-evaluating the original assessment that the damage was caused by poor original design and past repairs. A new inspection is scheduled for January.

Property Acquisition – The court date for the condemnation of property in the RPZ was postponed until late summer 2021 due to the pandemic. Additional federal funds from the FAA for airport projects will continue to be unavailable until that case is resolved.

ALP/Runway 826 – KDOT funds for this project were approved by the city council in November and bids were received for the project. A low bidder was selected and construction is anticipated to begin in Spring, 2021. Remaining funds will be used for future pavement preservation project.

Main Hangar/Airport Lounge – KDOT funding was approved for the creation of a business plan for the airport. The city is waiting on funding documents from the State. Other than these funds, the city has Capital Improvement Projects listed for a 20-unit T-hanger, but no funds have been allocated for that project.

### **Committee Member Updates**

The committee discussed future meetings and communication on status of airport projects. The CA also provided an update on the hiring of a new PW Director, who will manage the GMA for the city.

### **ADJOURNMENT**

Motion to adjourn was made and seconded, meeting adjourned around 6:35 pm.
